

By Your Side is a mark of security and quality, conceived to provide an added value to products and companies, such as **Master Italia S.p.A.**, that decide to take concrete action toward the achievement of qualitative and safety objectives in the field of materials.

By adhering to the By Your Side project, the partner company proves that his materials have been tested to ensure quality and safety standards.

Quality tests depend on the type of product and the aim of the project is to guarantee high standard of performance and durability of products. Here are examples of tests conducted by our laboratory team: abrasion and pilling resistance, colour fastness to washing, perspiration, rubbing and light. Besides quality tests, the product shall be checked on chemical safety parameters according to law requirements of the main markets worldwide.

By Your Side is a mark that stands for quality and safety commitment.

By your side® is a registered trademark

Progetto di ricerca e controllo dei materiali per la salvaguardia della salute e dell'ambiente.
